

CUSTOMER VOICE

" Even when hundreds of our machines are backing up data our networks never get jammed with **DSafe**. **DSafe** backups up open PST files without any problem "

Rajesh Nikharge | IT Manager, FDC Limited

" We have been using **DSafe** for several years. This is a reliable and stable software backup solution. In addition, they have a supportive team, who particularly went out of their way to help us during the Corona Virus lock-down period allowing us to function smoothly."

Mr. Shrikant Katigar - IT Head, CNK & Associates LLP

" **DSafe** is the best software for Backup as compared to other Backup software. Quick support and response from **DSafe** Team. We suffered from a major corruption issue but thankfully we had **DSafe** which could restore a month old data."

Mr. Ashish Chindarkar - IT Head, New Globe Logistik (P) Ltd.
